Dear Madam,

### **SRK Consulting to provide Gordon's Resource Statement**

The Directors of Aussie Q Resources Limited (AQR) are pleased to announce that the independent geological consulting group SRK Consulting (SRK) has been contracted to assess the latest drilling data from Gordons and to provide a Resource Statement for the mineralization at Gordons. SRK provided the maiden resource statement for the adjacent Whitewash project area in 2008, and it was decided by the Board that SRK should be given the opportunity to continue their assessment.

Whitewash and Gordons are contiguous mineralized areas within EPM 14628 - 100% AQR. Gordons has been shown to be a different style of mineralization to Whitewash and preliminary exploration has shown that the average molybdenum grade at Gordons is almost twice the average Whitewash grade.

The Company expects that the Gordons resource statement (or an updated Whitewash/Gordons resource figure) will be available by the end of the first quarter 2009.

Yours sincerely

John Goody  
Executive Director
