April 10, 2008

Dear Madam,

1000m RC DRILLING PROGRAMME AT JUICY FRUIT COMPLETED

Key Points:

- **A six hole preliminary 1000m RC drilling programme at Juicy Fruit has produced visual molybdenum mineralisation in all holes**

Queensland-based minerals exploration company Aussie Q Resources (ASX: AQR) is pleased to announce that a six hole 1,000m RC drilling programme at Juicy Fruit has shown visual molybdenum (Mo) mineralisation in each hole (assays awaited). Juicy Fruit is one of five satellite prospects at the Company's Rawbelle Copper/Molybdenum Prospect near Monto in Central Queensland (EPM 14628 – 100% AQR).

Juicy Fruit is situated 2.5km to the northwest and within easy trucking distance, of Whitewash the Company's initial molybdenum/copper project area which is the main focus of recent drilling activity. Visual inspection of drill chips has shown that the Juicy Fruit prospect is prospective for molybdenum and the company will drill further holes once assay data confirm the grade of Mo in the mineralization intersected during this round of drilling.

A location map showing the positions of the closest satellite prospects to Whitewash is shown in Figure 1, and the drill hole collar locations are shown in Figure 2.

Figure 1. Map showing locations of satellite prospects in relation to Whitewash

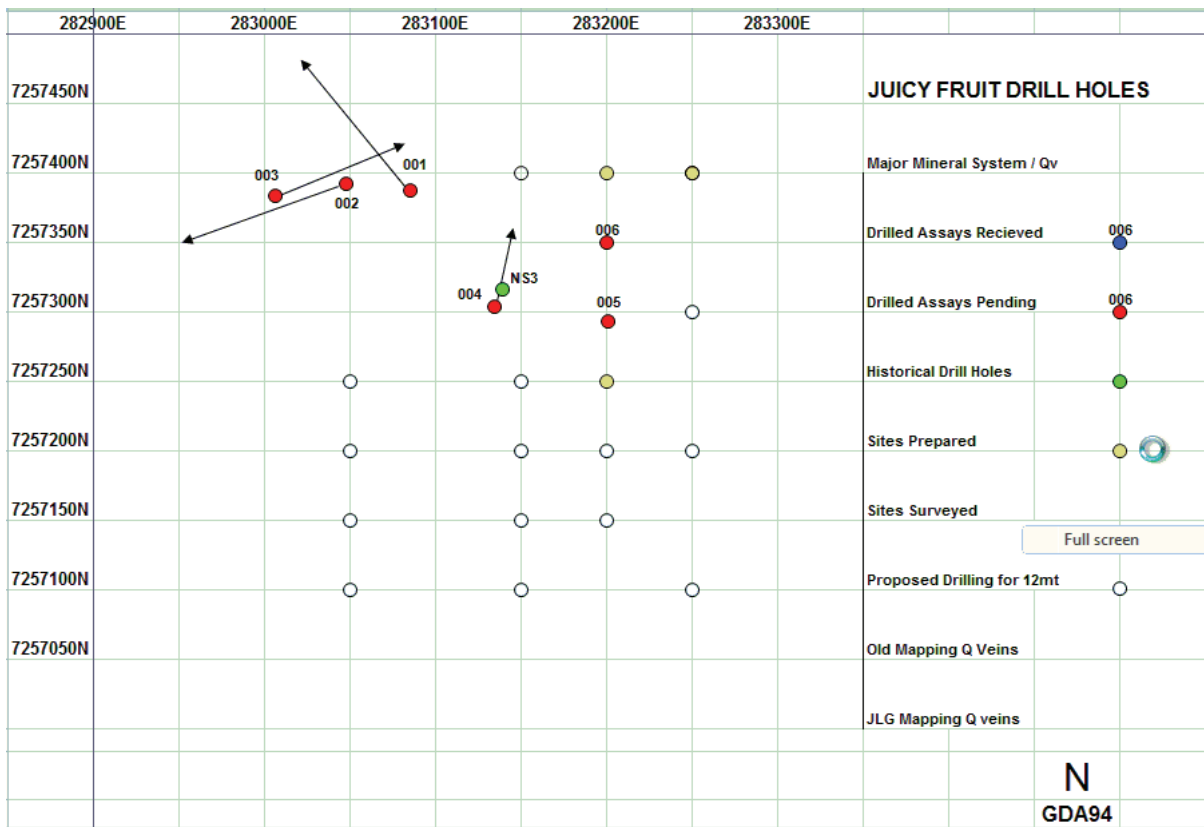

Figure 2. Drill collar locations at Juicy Fruit

Yours sincerely

Dr Richard Haren
CEO

The information in this report that relates to exploration results is based on information compiled by John Leslie Goody, Executive Director of Exploration, Aussie Q Resources Limited and supervised by Dr. Richard Haren who is a Member of The Australasian Institute of Mining and Metallurgy and who has sufficient experience which is relevant to the style of mineralisation and type of deposit under consideration and to the activity undertaken to qualify as a Competent Person as defined in the 2004 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Dr Richard Haren is a self employed consultant who works for AQR and has consented to the inclusion in this report of the matters based on his information in the form and context in which it appears.
